TRI-COUNTY KIWANIS CLUB MEETING

CLUBS PRESENT	ABSENT
Midland	Bay City
Saginaw Downtown	
Saginaw Riverside	

The meeting was called at the home of I. Hoffman, President of Saginaw Downtown to discuss plans for the contest to name the new Tri-County College.

A general discussion was held as to how we should run the contest.

COSTS

It was the general feeling by all members present that the Kiwanis Clubs should handle all of the costs which will cover the final award and expenses involved in promoting the contest.

PRIZE OR AWARD

Everyone agreed that for a final prize the clubs would offer a scholarship to include the tuition and books. Nothing was definitely decided for what length of time either one or two years. We should check with the trustees to find out what these costs will run before any final decision is reached.

METHOD

Nothing definite was decided as to who would be eligible or rather from what area we would limit the contest to. It was felt that any resident of the three counties would be eligible as this area is going to bear the cost of the college. The college will be open to residents from the surrounding area also and as we want a very suitable name for this college we felt that we should not limit the contest to the three county area exclusively. This is to be discussed with the trustees.

LENGTH OF CONTEST

This to be checked with the trustees also. They want a name and we should have their approval as to when they would like to have the name ready for their use. Everyone was in agreement that the best time would be from after schools open and to run not later than December 31st because people will lose interest.

RULES

Nothing definite was decided on this matter. It was felt that we should include some people who are more familiar, than the members present, on the rules. We felt that on the entry blank the suggested name should be written and then a short 50 word explanation as to why the name was used. The group felt that we should check with the trustees as to who is to be responsible for the final choice. Also what do the trustees want in determining the final selection, one name or a group of names that would seem agreeable to them.

PUBLICITY

It was felt that the three newspapers in the city of each club would co-operate and give ample publicity to the contest and the other media such as radio, television and other weekly newspapers would co-operate also. Each club would check carefully to see that the smaller news media were made aware of the contest and that they should be given any and all news releases plus the major medias; namely, the three newspapers and radio and TV coverage.
